Profile

Passionate **Web Developer** dedicated to crafting exceptional digital experiences. Committed to creatively solving problems and collaborating seamlessly within teams.

I transform concepts into appealing and functional websites/applications, achieving impactful results aligned with set objectives.

Continuously seeking to enhance my skills to deliver outstanding service, I embrace learning new technologies to broaden my expertise and contribute to the growth of others.

Skills

Technical

I possess a strong command of various technologies and tools that enable me to develop web applications effectively. Some of my technical competencies include:

HTML, CSS, JavaScript, ReactJS, Redux, Express, Sequelize, NodeJS, PostgreSQL.

Soft

- Ability to analyze work-related challenges and find effective solutions.
- Smooth teamwork to achieve common goals.
- Adaptability to change and facing new work environments.
- Creativity to generate innovative ideas.
- Motivation for both learning and teaching.
- Maximizing peer skills.
- Clear communication to express ideas concisely.
